

Incentives and Financing Makes Solar Accessible for Nonprofits

With the help of Inflation Reduction Act (IRA) incentives and debt financing, you can reduce the cash required to install solar by 75% or more

BENEFITS OF SOLAR FOR NONPROFITS

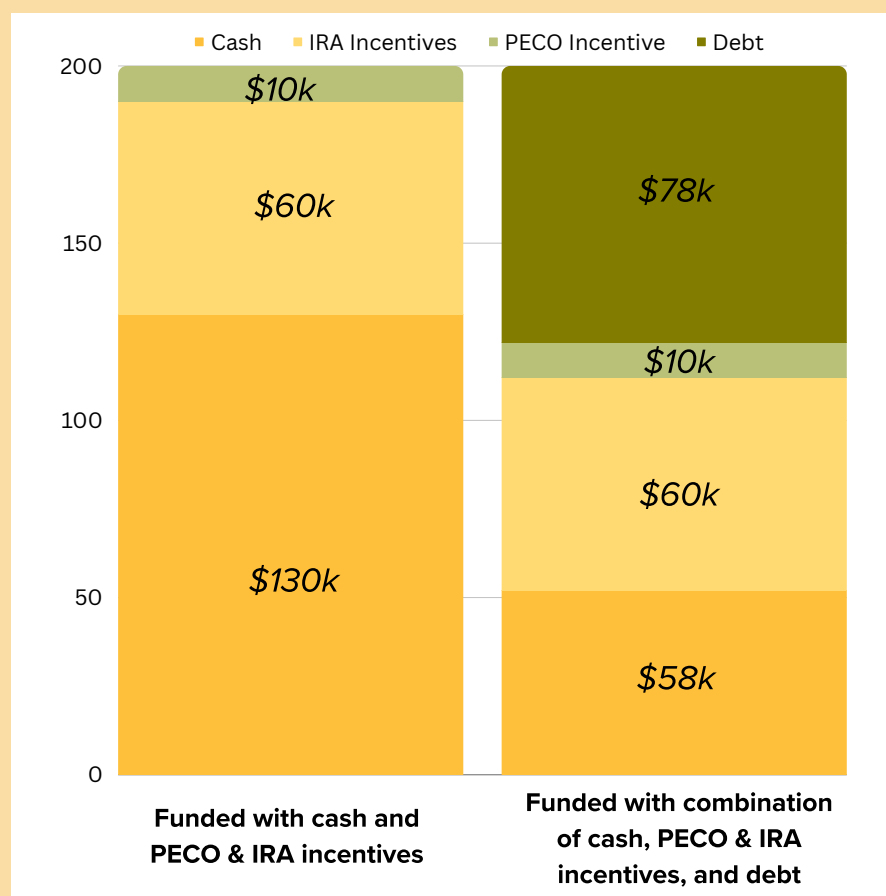

Decrease operating costs

Reduce your organization's overall carbon footprint

Build climate resilience in your community

Protection from utility rate increases

SOLAR FINANCING OPTIONS

Assumptions: \$200k total system cost, 80kw system size, 5% PECO commercial solar incentive*, and 30% direct pay from IRA incentives

**PECO's Incentive percentage for solar projects vary*
